SCHOOL REPORT.

DIVISION No. 1. Summer term of nine weeks, fall term of eleven weeks, were both taught by Miss Stella M. Baker. Miss Baker has taught three successive terms in this school, and so far as we know, to the perfect satisfaction of all interested. The examination at the close of each term was good, and showed that the scholars had made good progress.

DIVISION No. 2. Summer term of nine weeks was taught by Flora B Baker. Miss Baker is a good teacher, and her efforts were appreciated by all connected with this school, and all wish her as good success with her private school of one scholar, as heretofore in our public schools.

Fall term of ten weeks taught by Cora F. Sabine. Miss Sabine has taught too many terms in our schools to need any praise from us. Suffice it to say that she gave entire satisfaction.

DIVISION No. 3. Summer term of nine weeks was taught by Jennie M. Weeks. This was the second term that Miss Weeks has taught in this school, and with satisfaction to all.

Fall term—five weeks and three days were taught by Miss Weeks with the same good results as heretofore. The remainder of the term—five weeks and two days—was taught by Lena C. Maxfield. This was Miss Maxfield's first experience in teaching. She succeeded well, and should she continue to teach we bespeak for her a successful career.

DIVISION No. 4. Summer term of nine weeks, and fall term of eleven weeks taught by Kate Egan. Miss Egan is an experienced teacher, and devoted her time faithfully for the benefit of the scholars. The scholars made good progress in their studies, and the examination at the close of each term was good. In this school there is still a lack of the cooperation that is needed to make the school as successful as it should be. The fault is not of the parents alone, for a large share of them give their cordial support; but there are some who have no scholars, who take an active part in discussing the affairs of the school without visiting it, which is not beneficial to the school, but decidedly the opposite. This is not right, and we hope that we shall have no occasion to allude to it again.

DIVISION No. 5. Summer term of nine weeks; fall term of eleven weeks. Both terms were taught by Dora M. Pike. Miss Pike is a teacher of experience, having taught many successful terms. She has taught several terms in this school, always with good satisfaction. The scholars made good improvement in their studies, and the examination showed that the time had been well improved.

GENERAL REMARKS.

In looking back over the school year just closed we feel to congratulate the people of Goshen on the condition of the schools. In procuring teachers during the past year we think we have been very fortunate in procuring good teachers during the year—those who have cheerfully devoted their time and energy to the advancement of the scholars. We do not believe in making a prison of a school-room, or prisoners of the scholars; that they may be treated as criminals. In connection with this, a remark we once heard an eminent divine, who had been a teacher for many years, make in an address at the close of a term of school, seems applicable. While speaking of the government of schools he said: "A child that is taught to obey at home will obey at school or anywhere else." A truer saying we believe never was uttered. A word to the parents and citizens—you should with much greater thoroughness inform yourselves as to the condition of the schools. The registers show that but very few visit the schools, and those mostly at the close of a term. We ask you to visit the schools frequently, during each term. The teachers and scholars will appreciate your interest in the schools, and it will encourage them to make greater efforts than it would if you mani-

fested no interest, or indifference in the success of the school. When the majority of our scholars leave our common schools their school days are over; their education completed, and for that reason, and in their interest we ask of you a more hearty cooperation with the teachers and school board, and a deeper personal interest in our schools. This interest may be shown by visiting the schools, sustaining the teachers in doing right, and if you visit the schools, having the scholars' interest in view, you will make few mistakes. Encourage and direct the pupils at home. There is too much indifference to our schools and their needs. There is nothing in the town of more importance, and nothing that demands the attention of every citizen more than the cause of education. Let all citizens of the town interest themselves in the welfare of our schools. Show your interest by visiting them. Encourage the teachers and scholars, and the result will be an improvement to our schools, and a pleasure to all

Respectfully submitted,

E. SISCHO, } School Board
E. H. CARR, } of
JAMES W. ROGERS, } Goshen.
